BUSINESS LOCALS.

So general has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectorial Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectorial Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.—Dover (N. H.) Bee.

NOTICE.

To our customers, and fruit growers generally, we would say:—Having been creditably informed that some parties were circulating a report, that our peach trees were not reliable, as our varieties were badly mixed, as we cut several sorts and put all together, and bud from them, regardless of the mixture, that we take buds from trees that have the yellows, &c.

We would inform those interested that our stock is budded mostly from healthy bearing trees, and the buds taken off when the fruit is on them, and which we know to be correct. When we get buds from other Nurseries, in all cases, we get them from the most reliable parties in the business, and all buds are cut under our own personal observation, and no buds, that there is a question about their genuineness are used, but rejected at once. No buds from diseased trees are used on any consideration. We use natural seed for stock, and spare no pains or expense in making our trees as fine as can be grown, and all we ask, is a trial of our trees to prove them as represented. Having had upwards of twenty years experience in the Nursery business, we can with confidence say, we believe, we can grow trees &c., with correctness, and satisfaction to all who may favor us with their patronage.

TESTIMONIALS.

Mrs. H. M. P. Allen, No. 728 Chestnut Street, Philadelphia, deposed:

"The Grover & Baker far excels any other machine for dress-making and general family use. The stitch also is more beautiful and durable than any other stitch that I know of. The machine is so simple in its combination of parts and its practical operation, that it is very difficult to get it out of order, and any operative can manage it. It is the only machine which has yet succeeded in embroidery."

Mrs. Henry Ward Beecher writes:

"More than two-thirds of all the sewing done in my family for the last two years has been done by Grover & Baker's Machine, and I have never had a garment rip or need mending, except those rents which frolicsome boys will make in whole cloth. It is, in my opinion, by far the most valuable of any I have tried."

No. 6—A farm of 111 acres adjoining No. 5, with which it will compare favorably. These farms will be sold jointly or separately.

No. 7—A farm of 550 acres, on Bohemia Manor, known as the Sluyter property; the best soil on the peninsula. This is a good chance for a man of means.

Artificial Manures Sold in Delaware.

Visiting Delaware College a few days since, your correspondent called upon T. R. Wolf, Ph. D. Professor of Chemistry, &c. also, by virtue of legislative enactment requiring all fertilizers and other commercial manures offered for sale in the State, to be analyzed, analytical chemist for the State. The Professor, with coat off, was busily engaged with pots, kettle and pans, dissolving, testing and carefully analysing in turn the various articles furnished him by manufacturers. The above shows to the farmer the exact number of pounds of ammonia, of soluble phosphoric acid, and of potash contained in each ton of the various fertilizers, with the market value of each ingredient in the crude state in which they are found in the mixtures. It is gratifying to note an improvement in quality of nearly all the super phosphates: also a reduction in price. Since the present harvest has demonstrated the futility of attempting to raise wheat without fertilizers, the question arises, what kind is the best to buy. The State law solves the problem. Consult the report of the State chemist, and you have the worth of each article carefully compiled after a thorough and complete analysis in which no guess work occurs. It is due the manufacturers to state, the value of the respective ingredients were obtained from Prof. Buckner's work, "American Manures," which was recommended to the writer by a large manufacturer of Philadelphia.

Prof. Wolf was exceedingly courteous, affording me every facility for understanding the modus operandi of his work, which he unquestionably thoroughly comprehends and conscientiously performs. He says owing to the very great difference existing between the results obtained by his predecessor, Prof Williams, and himself, on sundry analyses, he has submitted samples to the celebrated chemist, Dr. Geuth of Philadelphia, who has invariably approved Dr. Wolf's report, which shows the correctness of Dr. Wolf's work, and that manures sometimes vary in quality.

GREAT NORTHERN AND SOUTHERN NURSERIES.

100,000 Prime Peach Trees.

All budded on stock grown from natural seed The above stock embraces some new and desirable varieties that cannot be obtained elsewhere this season.

300,000 Apple Trees,

Standard and Dwarf, two and three years old largely of early variety and Southern winter or keeping apples. Fruit growers would do well to turn their attention to the cultivation of early Apples. The early varieties grow and fruit well anywhere on the Peninsula; bear young and command high prices in the market. All who plant peach orchards should not fail to plant the ground with early apples at 34 feet apart with peaches between, each way—37 apple and 113 peach trees to the acre. Peach trees alone at 20 feet each way 109 per acre. Before the peach trees are one half done the apples are in profitable bearing; the apples will last about 50 years. In 1871 when the Hale's Early peaches sold in New York for from $1.50 to $3.00 per crate, the early apples sold readily at same time for $3.00 to $5.00 per crate; the apples producing three times as many crates per acre as the peaches. When the peach orchard is done and gone the planter has the ground occupied with a good and profitable orchard, which in most cases will outlive the planter. I have a large stock of standard and Dwarf Pears, Early Richmond and other Cherries, Gooseberries, Currants, Herstine and other Raspberries, Blackberries in variety, Strawberries in variety, Conovers Collossal and Imperial Asparagus, Evergreen and Decidous Trees, Shrubbery, Roses etc, suitable for farms and yards, Cemetries, &c. Hot-house plants—can furnish all kinds of trees and plants usually found in any first class establishment. Orders by mail will receive prompt attention—write for catalogue. Hiram Deal, Esq. is my authorized agent at Middletown, Del., all orders left with him will receive prompt attention.

Ayer's
Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back,** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
